

The Free Lantern, tech rider

Solo DJ and MC show with projected visuals. Jasper Nuyens performs; a volunteer sound technician helps with setup (2 people in total).

SET

Set lengths: 45, 60, 90 minutes.

Setup: 45 minutes. Teardown: 20 minutes.

JASPER BRINGS

Pioneer DJ XDJ-RX3 controller

3 laptops

handheld mic

lantern lights

2 JBL party speakers (can serve as the PA for small venues)

AUDIO

Larger rooms: venue PA with a stereo line input plus one mic input (larger rooms).

Small rooms: Jasper's own JBL party speakers (small rooms).

No venue sound engineer is required.

PROJECTION

The full setup uses 5 short-throw projectors with screens: 1 in the middle and 2 on each side. 1 projector is the minimum.

Laptop 1 is the master controller and drives the middle screen. Laptops 2 and 3 each show their own screen and also feed the side projectors. The full setup is 5 projectors (1 middle, 4 on the sides); the minimum is 1.

POWER AND TABLE

230 V sockets for the full setup with 5 projectors: 12 (12 with the JBL speakers, 10 without).

230 V sockets for the 1-projector setup: 8 with the JBL speakers, 6 without.

Lantern lights: Mains powered (230 V).

A smaller stage is possible when downsizing to 1 projector.

A table of about 1.5 m.

THE VENUE PROVIDES

stereo line input plus one mic input for larger rooms

230 V power for the controller, 3 laptops, projectors, lantern lights and speakers

a table of about 1.5 m

1 projector minimum; 5 short-throw projectors with screens for the full setup

HOSPITALITY, FEE AND TRAVEL

Access, parking and catering for 2 people.

Fee and travel: To be discussed with Jasper directly.
